

*Committed to connecting the world*

*The International Telecommunication Union  
is seeking a highly-motivated and hands-on*

## **Internal Auditor** (Geneva, Switzerland)

*The ITU is a United Nations specialized agency which brings governments and industry together to coordinate the establishment and operation of global telecommunication networks and services; it is responsible for standardization, coordination and development of international telecommunication including radiocommunication, as well as the harmonization of national policies.*

Under the supervision of the Chief Internal Auditor the incumbent will plan and carry out risk-based audits, financial audits and operational audits of large and complex operations, prepare audit reports and assess the adequacy and effective use of internal controls. Experience of internal auditing in a public sector administration would be an advantage.
